Re: Mr. Oliver Nanasy

Dear Sir / Madam

Mr. Oliver Nanasy is a 3rd year student at the Institute of Technology Carlow. He is studying for a B.Eng (Ord) in Aircraft Systems and is expected to be conferred this November 2019.

IT Carlow has a student population of circa. 7000 students. The B.Eng in Aircraft Systems course is a three-year full-time course and is recognised at Level 7 of the National Framework of Qualifications in accordance with the QQI (Quality and Qualifications Ireland) Regulations. The course is also approved by the European Aviation Safety Agency (EASA Part 147), and is recognised by the professional engineering body in Ireland, namely Engineers Ireland and the Royal Aeronautical Society for associate membership.

I have lectured Oliver in two subjects during his time here so far. My personal recollection is that his attendance and punctuality were excellent. Oliver has assumed a leadership role for his class. He was an active participant during lectures and worked hard throughout his time here. He is very well thought of by fellow students and staff.

I am happy to recommend to him.

Yours sincerely,

Roddy McNamee
